EDUCATION

2022 - 2024
PAK TURK COLLEGE, ISLAMABAD
- HSSC - ICS

2020 - 2022
SCIENTA VISION, ISLAMABAD
- SSC - Science

KEY SKILLS

- Unity
- C++
- Html CSS
- C#

SKILLS IN PROGRESS

- Network Engineering
- CISCO
- DevOps
- AWS
- Linux Server Managment

LANGUAGES

- Urdu
- English

PROFILE

I am an independent developer. My focus is on delivering high-quality, user-centric solutions, while continuously expanding my skills in Linux, Web development, Network Engineering, DevOps, CISCO and AWS. My ability to adapt and learn new technologies helps me effectively contribute to diverse projects and deliver impactful results.

EXPERIENCE

Unity And C++   2018 - 2022
Personal Projects & Self-Learning

- As an independent developer, I focused on creating user interfaces for mobile and desktop applications using Unity. My work included developing personal apps with a strong emphasis on functionality and user experience, and optimizing these applications for both Android and desktop platforms.

Linux, Web Development, DevOps, AWS, and Cisco   2022 - Present
Personal Projects & Self-Learning

- I have worked on configuring and managing Linux servers for personal projects and developed web applications using HTML, CSS, and JavaScript. Additionally, I have studied network configurations and protocols using Cisco Packet Tracer. My skills include basic Linux administration, web development, and introductory knowledge in AWS, DevOps, and networking. I am very new to AWS and do not yet know about CI/CD and other technologies in AWS but plan to learn them in the future.
